ABOUT ME

I am a 3D Artist and Animator with 5 years of industry experience. I create captivating 3D models, animations, renderings, and designs for various clients and projects, using a wide range of software tools and techniques.

My core competencies include 3D modeling, lighting, rendering, texturing, animating, video editing, and character design. I am always eager to learn new skills and technologies, and to challenge myself creatively and professionally.

EXPERIENCE

●	Sept 2023 Superfly Production (Freelance)	3D ANIMATOR Created animation for advertisement of Campus Shoes with simulations for marketing
●	Mar- Sept 2023 Petals World Inc	3D ARTIST Delivered the environment and 3D assets of 3 games Designed and animated characters for the game play
●	Jun- Aug 2022 Superfly Productions New Delhi	3D GENERALIST Created photo-real product renders and landscapes as required by the script and created storyboards for the same. I was responsible for designing models used for marketing purposes, and made animations and videos.
●	Sept- Dec 2021 MC SQUARE Hong Kong	LEAD ANIMATOR Designed and animated the brand mascot according to the brand language and strategy for digital marketing and print media advertising
●	2019 Freelancing	3D VISUALIZER FOR BRIAN TONG Made 3d models, renders and animations of consumer tech products
●	2019 Freelancing	3D VISUALIZER FOR EVERYTHINGAPPLEPRO Made 3d models, renders and animation of upcoming apple products for Philips audience to better understand the design.
